Lesson 5 · Lesson guide

With Ritesh Bucha, Founder, Flowy

The *goal*

Run Virality score on your ad, read the report, fix the weakest moment and score it again.

Step by *step*

1 Open Virality score

Check a post before it posts.

2 Open Virality score

Add the content. Upload it, or From Library.

3 Open Virality score

Platform: where it's going.

4 Open Virality score

Context is optional, and it makes the report way sharper.

5 Open Virality score

What does it actually read?

6 Open Virality score

Open on motion, not a logo.

7 Open Virality score

Check the estimate under Analyze.

8 Read the report

Pick the top one, change that shot, score again. Change five things and you've learned nothing.

9 Read the report

Keep everything that already works exactly as it is.

10**Fix it and score again**

I regenerated the sip on the canvas, mug and logo in frame, and recut.

11**Fix it and score again**

When do you stop?

12**Fix it and score again**

Keep the winning cut.

History

- Open Virality score: <https://tryflowy.ai/video/virality-analysis>

Common *mistakes*

- Scoring a different cut than the one you'll post.
- Leaving Platform on the default. Each platform rewards different hooks and pacing.
- Fixing every suggestion at once. Change the top issue, then score again.
- Skipping Context. Audience and caption make the report sharper.
